Introduction to Literary Hermeneutics Jul 21 2022 Peter Szondi is widely regarded as being among the most distinguished postwar literary critics. This first English edition of one of his most lucid and interesting series of lectures, translated by Martha Woodmansee and with a foreword by Joel Weinsheimer, opens up his work in hermeneutics to English-speaking readers. Peter Szondi here traces the historical development of hermeneutics through examination of the work of German Enlightenment theorists, which yields valuable insights into the "material theory" of interpretation.

An Introduction to the Study of American Literature Jun 20 2022 "This book is intended as an introduction to the study of American literature. Although the chapters on the separate authors are wholly distinct, they have been so planned that each of them prepares the way for its successor, and that all of them together outline the changing circumstances under which American literature has developed. An attempt has been made to show how each of the chief American authors influenced his time, and how he in turn was influenced by it; and also to indicate how each of them was related to the others, both personally and artistically. Bearing in mind the fact that the student needs to have his attention centered on vital points, all dates and all proper names, and all the titles of books not absolutely essential, have been rigorously omitted. Interest has thus been concentrated on the literary career of each of the greater writers and on their practice of the literary art, in the hope and expectation that the student will be encouraged and stimulated to read their works for his own pleasure. After the consideration of these more important authors, one by one, the writers of less consequence have been discussed briefly in a single chapter; and in like manner a single chapter only has been devoted to a summary consideration of the condition of our literature at the end of the nineteenth century. To arouse the student's interest in the authors as actual men, the illustrations chosen have been confined to portraits and views,

and to facsimiles of manuscripts. To enable him to see for himself the successive stages of the growth of American literature, and to let him discover how the authors sometimes came one after another and sometimes worked side by side, there has been appended also a chronological table of the chief dates in our literary history. As mere text-book instruction can never be an adequate substitute for the student's own acquaintance with the actual works of the authors discussed, there have been annexed to every chapter bibliographical notes calling attention to the editions most suitable for the student's reading, and also to the best biographies and to a few of the most suggestive criticisms."--From the Prefatory Note. *The Cambridge Introduction to Literature and the Environment* Sep 18 2019 Environmental criticism is a relatively new discipline that brings the global problem of environmental crisis to the forefront of literary and cultural studies. This introduction defines what eco-criticism is and provides a set of conceptual tools to encourage students to look at the texts they're reading in a new way.

Linguistic and literary history, cultural history and the history of ideas--that are relevant to the study and enjoyment of English Literature. But although the main emphasis in the book is on the study of English literature in terms of Western critical categories, there are also references to literature and the criteria enunciated in Indian treaties on poetics. The total aim of the book is simply to help the student to view English literature in its varied extrinsic forms and appropriate backgrounds, and also to see it in its true inwardness and universality.

Hoe fictie werkt Jan 23 2020 Hoe fictie werkt is een fonkelend en scherp boek over hoe romans en verhalen in elkaar zitten. James Wood, een van de meest prominente literaire critici van onze tijd, buigt zich over de vraag hoe dat eigenlijk in zijn werk gaat: het schrijven en lezen van literaire fictie. Wat bedoelen we precies wanneer we zeggen dat we een personage ‘kennen’? Wanneer is een detail veelzeggend? Wanneer werkt een metafoor? Hoe waarheidsgetrouw is realisme?
