The Occupation of Iraq: Volume 2 Sep 26 2019 The invasion and occupation of Iraq rank among the most controversial and complex issues in international law in recent history. This volume of documents covers the occupation of Iraq from the planning stages of the invasion of Iraq in early 2002 to the transfer of governing authority to the Iraqi Interim Government on 28 June 2004. The book presents 595 selected documents including the first complete set of all Regulations, Orders, Memoranda and Public Notices issued by the US-led occupation administration of Iraq, the Coalition Provisional Authority (CPA), several of which were never published on the CPA's website or promulgated in Alwaqai Aliraqiya, the Official Gazette of Iraq. Some of these legal acts have shaped the economic and political system of present day Iraq and will be part of the country's legal order for years to come. The book also includes some 120 other CPA and CPA-related documents selected from more than 5000 unclassified CPA documents and received under freedom of information requests lodged in the United States, the United Kingdom, Australia and Switzerland. These documents include instructions and proclamations to the Iraqi people in the early stages of the occupation, organizational charts, internal legal opinions, diplomatic notes, international agreements concluded by the CPA with other States, and numerous internal memoranda for the head of the CPA, Ambassador Paul L Bremer, on legal, diplomatic and political issues. The book also presents for the first time all 235 resolutions passed by the Iraqi Governing Council (IGC) between July 2003 and June 2004. The resolutions as well as many of the 25 other important IGC documents (including various political statements, press releases and decrees of the Council's Higher National De-Ba'athification Commission) have been translated from Arabic and are presented here for the first time in English. These documents are complemented by the relevant United Nations documents on the occupation of Iraq as well as some 50 policy documents of the United States, the United Kingdom and the Iraqi opposition movement as well as all relevant fatwas (religious rulings) of Grand Ayatollah Ali al-Sistani which shaped the internal Iraqi political process during the occupation. This collection archives these important documents for future use and makes them easily accessible to researchers and professionals. Considering that the main source of information for the occupying powers in Iraq were the precedents set during the First and Second World Wars, the occupation of Iraq will serve as a modern precedent for future administrations of occupied territory. The documents are made easily accessible by a comprehensive table of documents, a list of abbreviations, more than 1100 explanatory notes and cross-references and a substantive subject index. This volume is the second on The Occupation of Iraq. It is complemented by a monograph by the same author which, on the basis of the documents collection, presents a comprehensive analysis of The Governance of Occupied Territory in Contemporary International Law.

Nazis on the Run Aug 06 2020 This is the story of how Nazi war criminals escaped from justice at the end of the Second World War by fleeing through the Tyrolean Alps to Italian seaports, and the role played by the Red Cross, the Vatican, and the Secret Services of the major powers in smuggling them away from prosecution in Europe to a new life in South America. The Nazi sympathies held by groups and individuals within these organizations evolved into a successful assistance network for fugitive criminals, providing them not only with secret escape routes but hiding places for their loot. Gerald Steinacher skillfully traces the complex escape stories of some of the most prominent Nazi war criminals, including Adolf Eichmann, showing how they mingled and blended with thousands of technically stateless or displaced persons, all flooding across the Alps to Italy and from there, to destinations abroad. The story of their escape shows clearly just how difficult the apprehending of war criminals can be. As Steinacher shows, all the major countries in the post-war world had 'mixed motives' for their actions, ranging from the shortage of trained intelligence personnel in the immediate aftermath of the war to the emerging East-West confrontation after 1947, which led to many former Nazis being recruited as agents turned in the Cold War.

ECOWAS Law Aug 25 2019 This book analyses the emerging jurisprudence of the Economic Community of West African States (ECOWAS), and seamlessly knits together all the disparate texts, policies and judicial decisions into a single, coherent resource. The work is deliberately crafted to address the lack of a comprehensive resource on the subject, and guide lawyers, policy-makers, Community citizens, researchers, students and civil society organisations through the labyrinth of the Community's laws and policies. From a socio-legal perspective, it unearths political, socio-economic and legal structures that impinge on the integration cause on the one hand, and dilute the efficacy of the Community legal regime on the other hand. Also, it exposes contemporary terrorism and conflict in West Africa and the legal interventions that the Community has adopted to respond to these challenges. In sequence, it traces and expounds the legal development of the Community norms with respect to sources of law, human rights, supra-nationalism and laws of the member states, reference procedure, action for damages, freedom of movement, discrimination and competition policy. The book particularly evaluates the extent of the human rights jurisdiction of the Community Court of Justice, as well as jurisdictional limitations to the protection of Community rights either at national or Community level. Also, it sheds light on the jurisdictional chasm existing between Community law and member states' national laws, and offers proven constitutional, legislative and judicial solutions to plug the gap. It explains vividly the common market, free movement of goods and the impact of Economic Partnership Agreement (EPA) on the entire ECOWAS free trade policy. In all these analyses, evaluation and examination of norms and policies, the work draws on the European Union's rich case law on similar points to explain recondite issues of law which may arise or have arisen from the application of any of the ECOWAS texts.

Migration Law in Montenegro Aug 18 2021 Derived from the renowned multi-volume International Encyclopaedia of Laws,

this monograph on the rules on immigration and right of residence of non-nationals in Montenegro examines the legal and administrative conditions for persons not having the citizenship of a State to enter the country and to stay and reside there. It provides a survey of the subject that is both usefully brief and sufficiently detailed to answer most questions likely to arise in any pertinent legal setting. It follows the common structure of all monographs appearing in the International Encyclopaedia for Migration Law, thus allowing easy comparison between the country studies. As migration and economic activities are often interlinked, the analysis pays particular attention to labour market access and regulation of self-employed activities for non-nationals. The book describes the status of such specific categories of persons as students, researchers, temporary workers, and asylum seekers, as well as the position of family members, detailing applicable legislation and providing practical information on administrative procedures, sanctions, and legal remedies and guarantees. The impact of international human rights law and various bilateral and multilateral agreements is considered, along with the broader application of national and local law to non-citizens in such areas as family relations, labour, social security, and education. Lawyers, scholars, practitioners, policymakers, government administrations, and non governmental organizations involved in the development, practice and study of migration law will find this book indispensable. It will be welcomed by lawyers representing parties with interests in Montenegro and immigration specialists in both public and private organizations. Academics and researchers also will appreciate its value in the study of comparative trends and harmonization initiatives affecting migrants.

The Rights of Refugees under International Law Nov 08 2020 Do states have a duty to assimilate refugees to their own citizens? Are refugees entitled to freedom of movement, to be allowed to work, to have access to public welfare programs, or to be reunited with family members? Indeed, is there even a duty to admit refugees at all? This fundamentally rewritten second edition of the award-winning treatise presents the only comprehensive analysis of the human rights of refugees set by the UN Refugee Convention and international human rights law. It follows the refugee's journey from flight to solution, examining every rights issue both historically and by reference to the decisions of senior courts from around the world. Nor is this a purely doctrinal book: Hathaway's incisive legal analysis is tested against and applied to hundreds of protection challenges around the world, ensuring the relevance of this book's analysis to responding to the hard facts of refugee life on the ground.
