Lincoln and Liberty Oct 10 2020 Since Abraham Lincoln's death, generations of Americans have studied his life, presidency, and leadership, often remaking him into a figure suited to the needs and interests of their own time. This illuminating volume takes a different approach to his political thought and practice. Here, a distinguished group of contributors argue that Lincoln's relevance today is best expressed by rendering an accurate portrait of him in his own era. They seek to understand Lincoln as he understood himself and as he attempted to make his ideas clear to his contemporaries. What emerges is a portrait of a prudent leader who is driven to return the country to its original principles in order to conserve it. The contributors demonstrate that, far from advocating an expansion of government beyond its constitutional limits, Lincoln defended both the Declaration of Independence and the Constitution. In his introduction, Justice Clarence Thomas discusses how Lincoln used the ideological and structural underpinnings of those founding documents to defeat slavery and secure the liberties that the Republic was established to protect. Other chapters reveal how Lincoln upheld the principle of limited government even as he employed unprecedented war powers. Featuring contributions from leading scholars such as Michael Burlingame, Allen C. Guelzo, Fred Kaplan, and Matthew Pinsker, this innovative collection presents fresh perspectives on Lincoln both as a political thinker and a practical politician. Taken together, these essays decisively demonstrate that the most iconic American president still has much to teach the modern-day student of politics.

Time Longer Than Rope Sep 08 2020 "Time Longer than Rope unearths the ordinary roots of extraordinary change, demonstrating the depth and breadth of black oppositional spirit and activity that preceded the civil rights movement. The diversity of activism covered by this collection extends from tenant farmers' labor reform campaign in the 1919 Elaine, Arkansas massacre to Harry T. Moore's leadership of a movement that registered 100,000 black Floridians years before Montgomery, and from women's participation in the Garvey movement to the changing meaning of the Lincoln Memorial. Concentrating on activist efforts in the South, key themes emerge, including the underappreciated importance of historical memory and community building, the divisive impact of class and sexism, and the shifting interplay between individual initiative and structural constraints."--Publisher description.

Chasing History Jun 25 2019 A New York Times bestseller In this triumphant memoir, Carl Bernstein, the Pulitzer Prize-winning coauthor of *All the President's Men* and pioneer of investigative journalism, recalls his beginnings as an audacious teenage newspaper reporter in the nation's capital—a winning tale of scrapes, gumshoeing, and American bedlam. In 1960, Bernstein was just a sixteen-year-old at considerable risk of failing to graduate high school. Inquisitive, self-taught—and, yes, truant—Bernstein landed a job as a copyboy at the *Evening Star*, the afternoon paper in Washington. By nineteen, he was a reporter there. In *Chasing History: A Kid in the Newsroom*, Bernstein recalls the origins of his storied journalistic career as he chronicles the Kennedy era, the swelling civil rights movement, and a slew of grisly crimes. He spins a buoyant, frenetic account of educating himself in what Bob Woodward describes as "the genius of perpetual engagement." Funny and exhilarating, poignant and frank, *Chasing History* is an extraordinary memoir of life on the cusp of adulthood for a determined young man with a dogged commitment to the truth.

Standing Soldiers, Kneeling Slaves Nov 30 2019 A history of U.S. Civil War monuments that shows how they distort history and perpetuate white supremacy The United States began as a slave society, holding millions of Africans and their descendants in bondage, and remained so until a civil war took the lives of a half million soldiers, some once slaves themselves. *Standing Soldiers, Kneeling Slaves* explores how the history of slavery and its violent end was told in public spaces—specifically in the sculptural monuments

that came to dominate streets, parks, and town squares in nineteenth-century America. Looking at monuments built and unbuilt, Kirk Savage shows how the greatest era of monument building in American history took place amid struggles over race, gender, and collective memory. Standing Soldiers, Kneeling Slaves probes a host of fascinating questions and remains the only sustained investigation of post-Civil War monument building as a process of national and racial definition. Featuring a new preface by the author that reflects on recent events surrounding the meaning of these monuments, and new photography and illustrations throughout, this new and expanded edition reveals how monuments exposed the myth of a "united" people, and have only become more controversial with the passage of time.

Abraham Lincoln May 05 2020 Now in paperback, this award-winning biography has been hailed as the definitive portrait of Lincoln. In the first multi-volume biography of Abraham Lincoln to be published in decades, Lincoln scholar Michael Burlingame offers a fresh look at the life of one of America's greatest presidents. Incorporating the field notes of earlier biographers, along with decades of research in multiple manuscript archives and long-neglected newspapers, this remarkable work will both alter and reinforce current understanding of America's sixteenth president. In volume 2, Burlingame examines Lincoln's presidency and the trials of the Civil War. He supplies fascinating details on the crisis over Fort Sumter and the relentless office seekers who plagued Lincoln. He introduces readers to the president's battles with hostile newspaper editors and his quarrels with incompetent field commanders. Burlingame also interprets Lincoln's private life, discussing his marriage to Mary Todd, the untimely death of his son Willie to disease in 1862, and his recurrent anguish over the enormous human costs of the war.

Monument Maker: Daniel Chester French and the Lincoln Memorial Mar 27 2022 When Abraham Lincoln was assassinated in 1865, fifteen-year-old Dan French had no way to know that one day his tribute to the great president would transform a plot of Washington, DC marshland into America's gathering place. He did not even know that a sculptor was something to be. He only knew that he liked making things with his hands. This is the story of how a farmboy became America's foremost sculptor. After failing at academics, Dan was working the family farm when he idly carved a turnip into a frog and discovered what he was meant to do. Sweeney's swift prose and Fields's evocative illustrations capture the single-minded determination with which Dan taught himself to sculpt and launched his career with the famous Minuteman Statue in his hometown of Concord, Massachusetts. This is also the story of the Lincoln Memorial, French's culminating masterpiece. Thanks to this lovingly created tribute to the towering leader of Dan's youth, Abraham Lincoln lives on as the man of marble, his craggy face and careworn gaze reminding millions of seekers what America can be. Dan's statue is no lifeless figure, but a powerful, vital touchstone of a nation's ideals. Now Dan French has his tribute too, in this exquisite biography that brings history to life for young readers.
